

Double Loop Bed Hand (135/135CP)

User Instructions

The double loop bed hand is constructed from tubular steel and fits between the bed base and mattress offering a rigid handle to aid the user(s) getting in and out of bed. It is suitable for beds between 3ft (single) and 4ft 6in (double) wide.

Installation Instructions

- 1. Remove the mattress from the bed, and place the Bed Hand on the bed base.
- 2. Remove the 'E' clips (arrowed above), and adjust the Bed Hand width, so that its internal width is the same width as the mattress and the holes in the tubing line up.
- 3. Reinsert the 'E' clips in to the holes to secure the Bed Hand at the correct width.
- 4. Place the mattress on top of the bed base and Bed Hand.
